

## ACT PREPARATION

Today's student is finding the college admission and scholarship process highly competitive. One of the most important factors in his or her career could be acceptance to the university of choice. Colleges use the scores from the American College Testing Program (ACT) to select applicants and award scholarships.

The Belvidere ACT Test Preparation course for high school **juniors** is designed to develop the skills to improve ACT scores. In addition to English, science, reading and mathematics preparation, the course emphasizes test-taking strategies and techniques. Students will use simulated test materials, and past exams to learn the different types of questions and test strategies for correct responses.

The ACT Test Preparation Course is a 22 hour program to assist students in preparation for the ACT, which is the first day's testing for the Prairie State Achievement Exam required for all juniors. The course cost is \$175 and includes a student testing workbook. Financial accommodations will be made for students on the free/reduced lunch program.

**Registration must be received by January 29.**

## COURSE SCHEDULE

***This session will meet at  
Belvidere South Middle School***

Saturday, February 6, 2010  
8:00 a.m. to 12:30
