

COLLEGE VISITS

College Visits give junior and senior students an opportunity to meet with admissions counselors from colleges and universities. Visits are held in the BNHS Career Center during a single class period.

Representatives visit during both the fall and spring semesters to provide students with information about college admissions, majors, campus life, scholarships, etc. They give students a great chance to ask questions and learn about different educational opportunities. College Visit dates are posted in the Guidance Office and are also read on the morning announcements a few days prior to each visit.

Students who are interested in meeting with a representative from a specific school are to get a pass from Mrs. Yunk, the Guidance Secretary, at least one day prior to the visit. Students need to get permission from their teacher to attend the visit by having he or she sign their College Visit Pass. It is to the teacher's discretion if the student will be allowed to miss class for the visit.

Any questions regarding college visits can be directed to:
