

# ***Problem Solving/ Response to Intervention***

Belvidere School District #100

By: Megan Johnson

# What is Response to Intervention?

Definition-

RTI is the systematic use of assessment data to most efficiently allocate resources in order to improve learning for all students (Burns and VanDerHeyden, 2006).

# What is Response to Intervention and the Problem Solving Process?

Goal-

Early Intervention

Data-based Decision Making

Quality Instruction

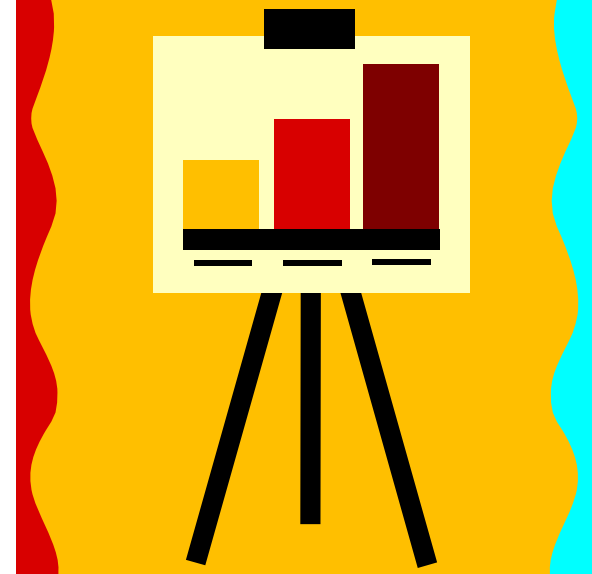

Increased Student Success

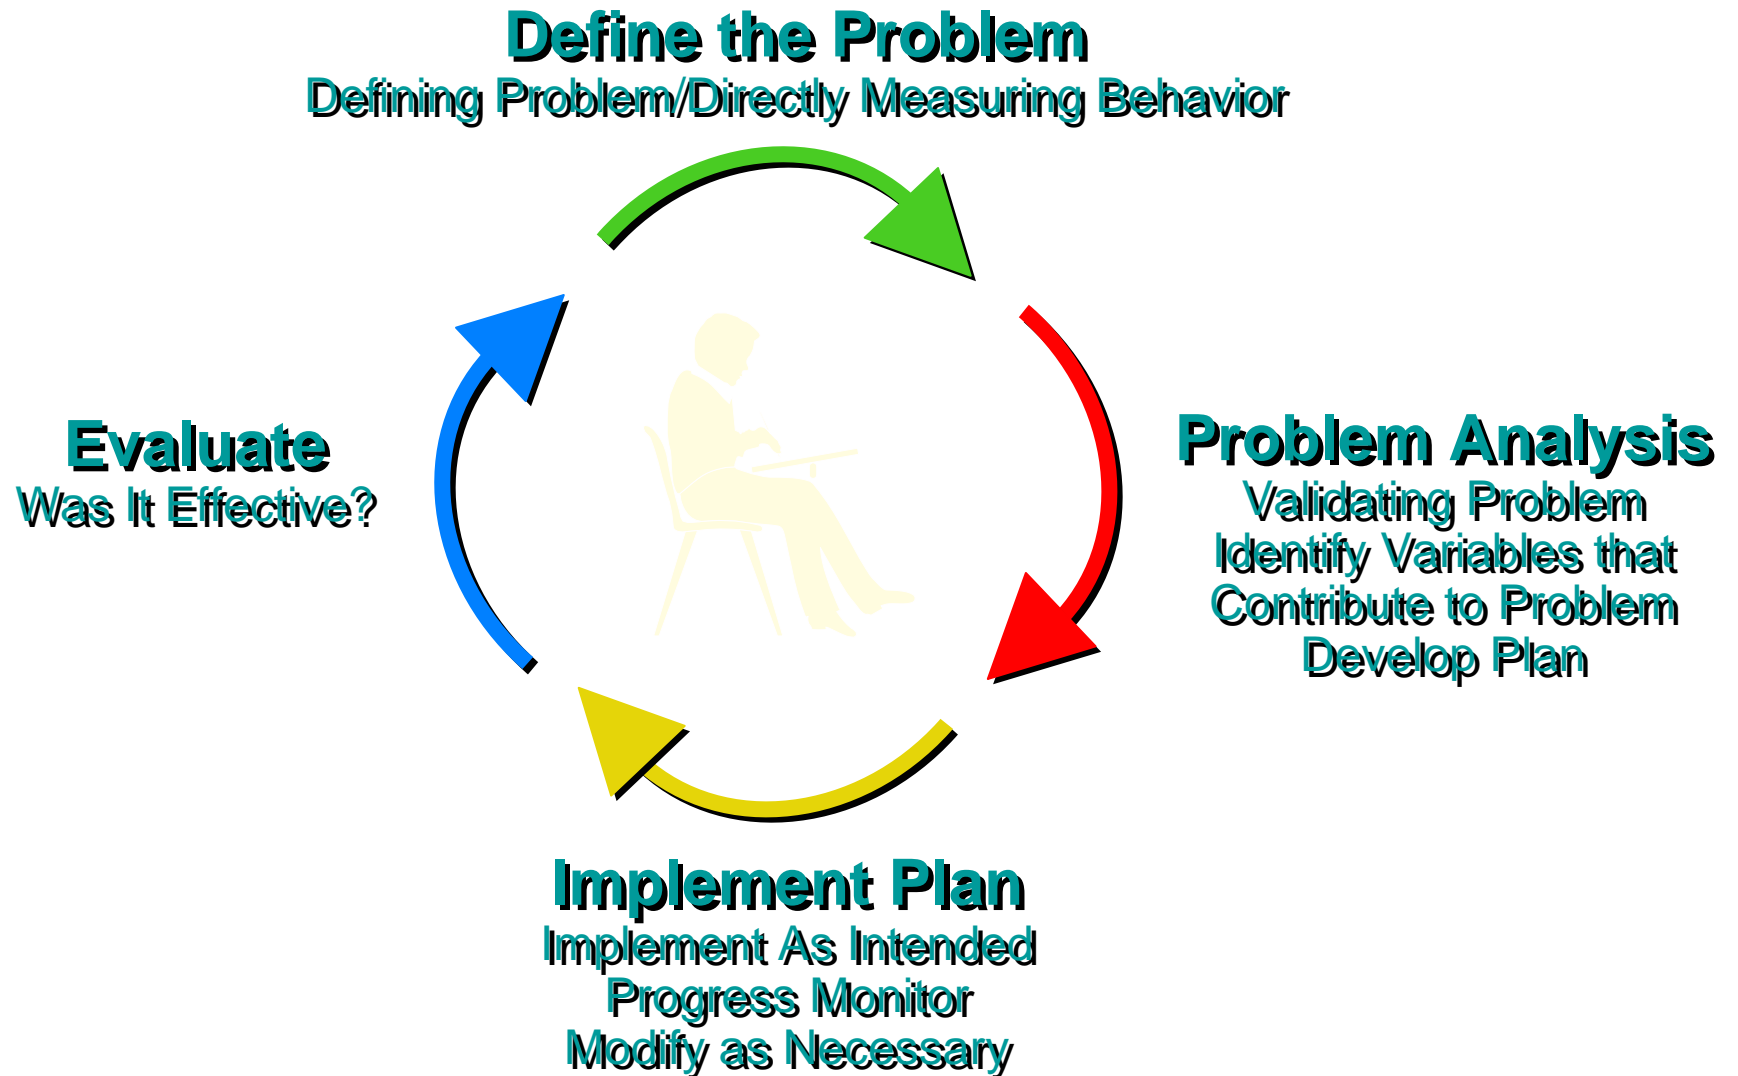

# What are the components of Problem Solving?

Four Major Components-

- ✓ Assessment Data
- ✓ Allocation of Resources
- ✓ Enhanced Learning
- ✓ Applicability For All

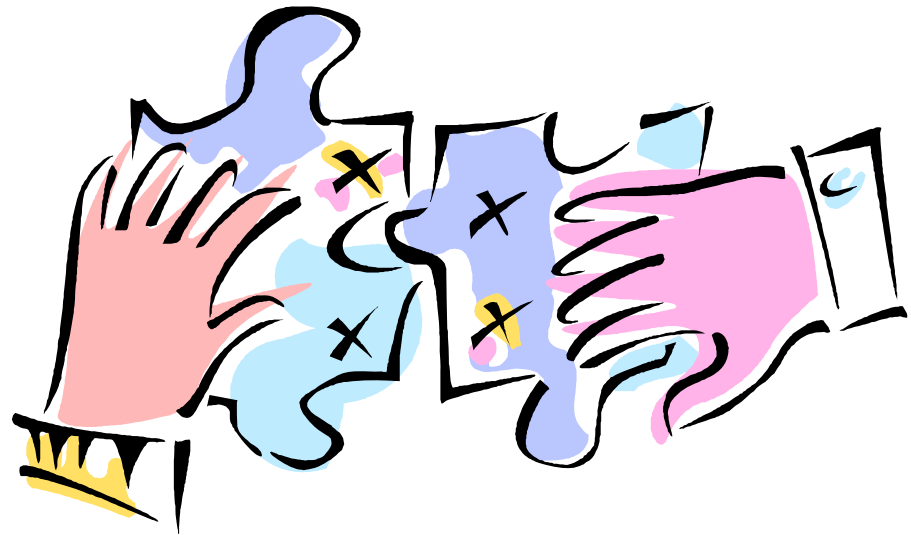

# Problem Solving Process

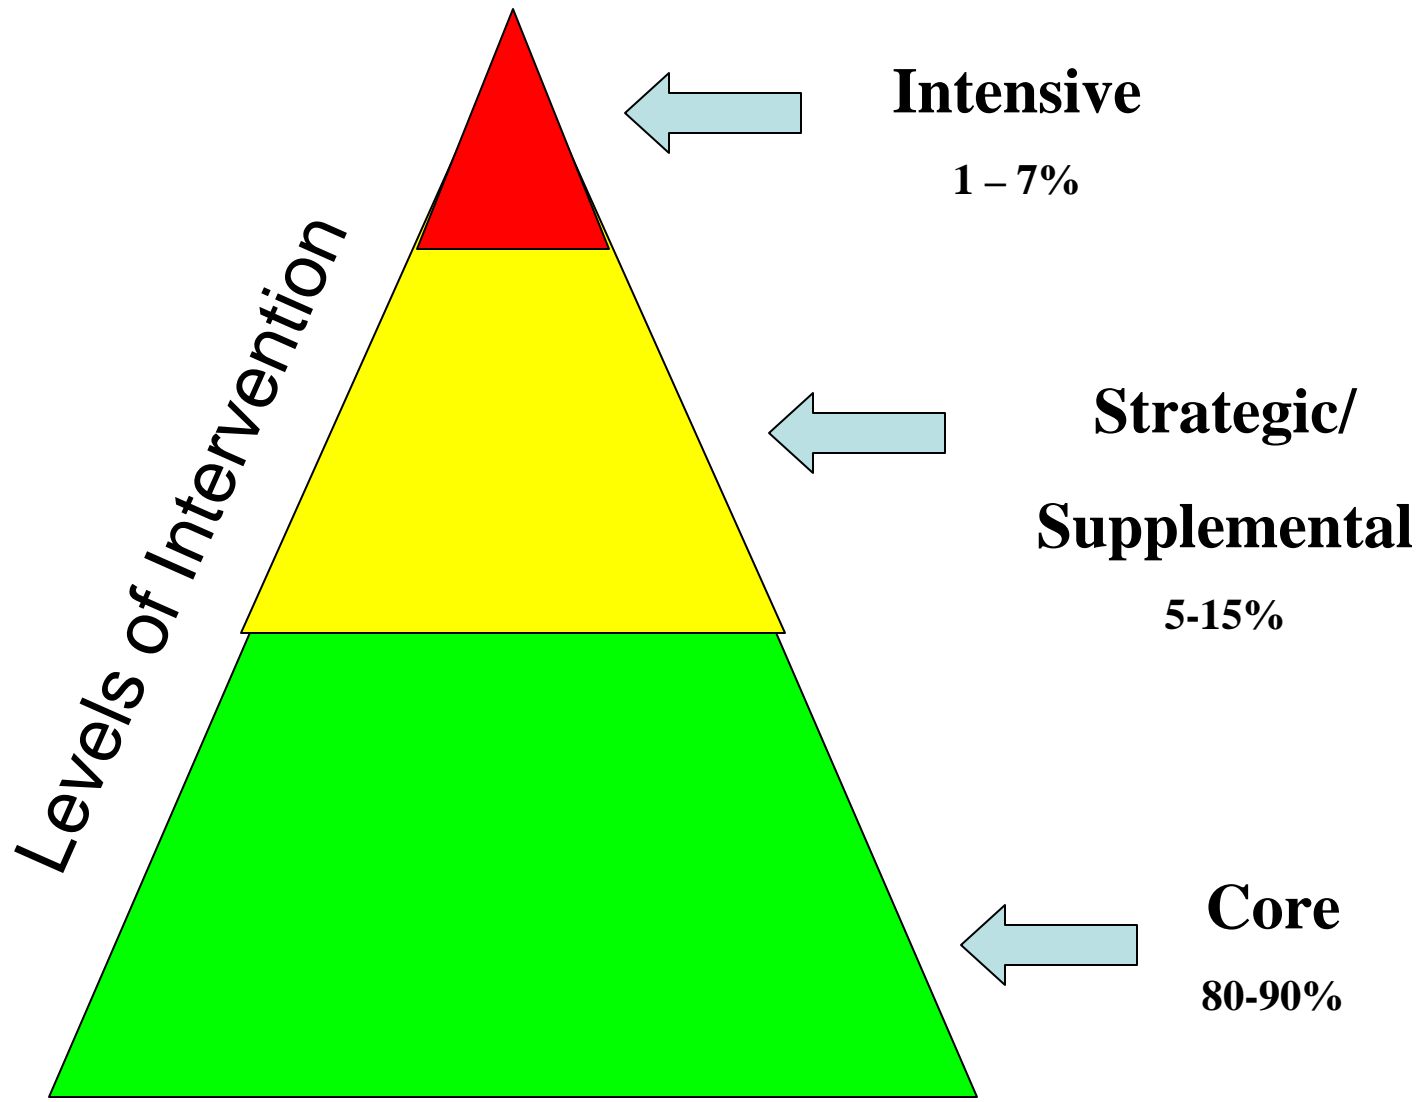

# Essential Elements

- Multi-tiered model
- Data-based decision making
- Early intervention
- Researched-based interventions
- Reallocating time/services
- Flexibility
- Collaboration

# School-Wide Systems to Support Student Achievement

Adapted from Sugai and Horner

# Universal Screening

A process of reviewing student performance through formal and/or informal assessment measures to determine progress in relation to student benchmarks related directly to student learning standards.

[www.rtinetwork.com](http://www.rtinetwork.com)

Students in grades K-10 will be screened 3X a year in Reading and also in Math in the very near future.

# Keys to Success

- District commitment
- Staff Development
- Communicating process to parents/school board/community
- Following through
- Every child is everyone's child
